Complete A (1-5) on pg. 91</p>	<p>Art –Design a poster for 'Safety in the Sun'. Include a slogan and make it visual!</p>

Hi all. Well done on your continued hard work. This week, please send in the work specified which I have outlined below and of course your photos/pictures for the gallery!

*Monday Maths work, your story 'The Mythical Creature', Tuesday Irish work, Wednesday Geog. Sheet pg.27 and Sun Safety poster. . As Summer is here and the weather has been beautiful, you may also like to do a project on The Sun and it can be shared on our class gallery page.

Remember to practice the tin whistle with Harry. *Pupils may also visit the websites listed on our school website for additional educational activities if they wish.

Magic Squares

A magic square is square grid with special arrangements of numbers in them.

Today's maths activity involves placing the first 9 counting numbers into a 3 x 3 grid so that each row, column, and diagonal add up to the same total.

What you need:

- Paper
- Pencils
- Scissors

INSTRUCTIONS

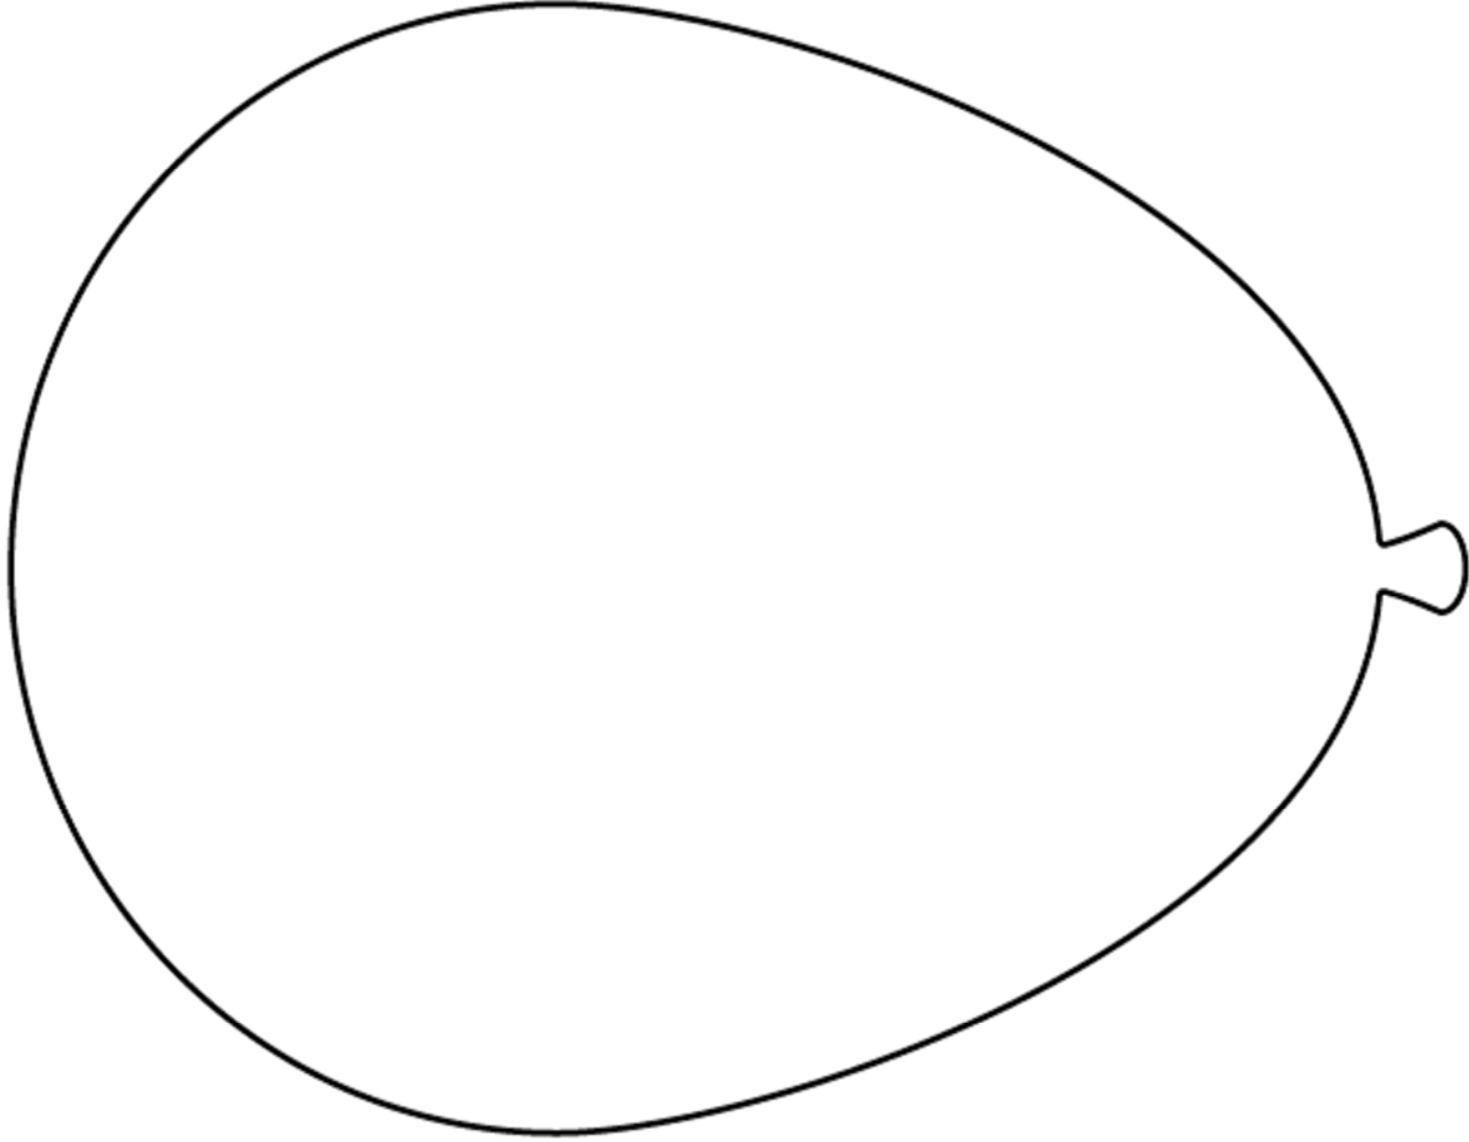

1. Draw and cut out the numbers from 1 to 9 on 9 cards
2. Draw a 3 x 3 square grid
3. Place the numbered cards into the grid so that the sum of each row, column and diagonal is equal to the same target number
4. Can you figure out a suitable target number?

Hints(only use if you're struggling!)

The sum of each row, column and diagonal should add up to a target number of 15

Place the number 5 into the middle box

Put the even numbers into the corners

Print out the Balloon Template and write your name and your class on the back.
Write a hope you have for the future in the centre and then get creative designing your balloon.
Try not to cover your lovely writing with your design.

Return your balloon to school on the same day you are returning your School Books-

We can't wait to see them!
